COMPANION · FBI SOURCE PAGES

Contents

Every FBI page the *Elsinore Ghost* write-up relies on, reproduced in full and unhighlighted, in the order the write-up uses them. 93 pages from 19 Vault parts.

> **How to read the citations.** The write-up cites FBI pages as *Part / PDF page / Bates* (e.g. 64/389/26839). Find the Part and page below; click a row to jump to it, or "Vault ↗" to open that Part on vault.fbi.gov and go to the same PDF page. Bates numbers here were checked against the stamp on each page image. Duplicate copies of the same document in other Parts are listed in the write-up's Appendix B, not repeated here. Redactions are the FBI's; nothing has been altered.

RE: Elsinore Paricenter Inc.

On 12/1/71, it was determined that Elsinore Paricenter Inc. has in excess of 1800 registration cards on file since May 1971, each card representing a first-time jumper at that parachute jumping center. The cards, 5 x 7 in size, bear the name, address, age, height and weight of the applicant. Each person wanting to jump at the Elsinore center must fill out an application - registration form before making his first jump at this center no matter how many times he has jumped elsewhere. On succeeding jumps, no further application or registration is necessary if the person is a member of the U.S. Parachute Association (USPA) and produces a USPA license. If the person makes a second jump and does not have the license the original registration card is pulled or checked so the person does not have to fill out a second form. Once the USPA license is presented, a USPA license number is noted on the original card.

All jumpers at Elsinore have been registered and registration cards have been maintained since 1957. There are approximately 10,000 registration cards on file, maintained at the Elsinore Paricenter Inc. office, Skylark Field, Elsinore, California. The person to see with regard to these records is [redacted] of the jump center.

He added that questions asked by this man were, in his opinion, precisely those which a person contemplating a crime of this nature would ask.

[redacted] stated that during the course of the questioning he also asked what type of commercial plane could be jumped from, at what altitude, and at what speed. During this conversation on the last time he had seen this man, he had also asked questions about jump centers in the Seattle and Portland areas. b6 b7C

He noted that anyone jumping at Elsinore must be a member of the U.S. Parachute Association and must be licensed to jump. [redacted] b6 b7C
[redacted] California, was interviewed at the Skylark Airport at Elsinore, California, and furnished the following information:

Upon hearing the newscasts and reading the papers concerning the skyjacking of a commercial aircraft in Seattle, Washington, on November 24, 1971, and upon seeing an artists conception of the individual who perpetrated this crime, [redacted] b6 b7C advised he believes he talked to a man who closely resembles the subject during July or August 1971. Based upon his conversation with this individual he strongly suspects the man may be the person connected with this crime.

[redacted] b6 b7C recalled that he talked to this man for approximately ten to fifteen minutes concerning different aspects of parachute jumping and during this conversation the man asked several unusual questions, such as how would one go about jumping out of jets. [redacted] specifically recalls telling the man it could be done if the door of the aircraft opened inward or if it had a rear stairwell that could be raised and lowered. The man appeared interested and they discussed this further, to the point where air speed and drag was talked about. The fact was brought up that full flaps and lowered landing gear would supply the drag needed to exit from a jet.

The man also asked [redacted] b6 b7C where jump centers were located in the northwest. [redacted] told him about three locations in the State of Washington, one by the Boeing Air Field in Seattle, one on the Washington side of the Columbia River, just north of Portland, Oregon, and the other center inbetween. The man was apparently interested, but did not right down the names or locations of those centers mentioned by [redacted]

[redacted] b6 b7C stated it was his opinion that a person contemplating a skyjacking of a commercial aircraft would ask questions such as those purposed. He recalled at the time these questions were asked he thought it was strange as nobody else has ever purposed such questions to him.

DB Cooper-26839

In addition, they discussed altitude of jumps, but [redacted] who was thinking in terms of altitude records, answered in terms, implying world record altitudes, oxygen supply, time and distance of free fall. b6 b7C

[redacted] also recalled the individual rather vividly in his mind because he wore "Cochrane" boots. He explained that Cochrane boots are peculiar to military jumpers and are not worn by teams, clubs, sport or novice. He stated that serious jumpers wear a French boot and first time jumpers have gone with street shoes, tennis shoes, sandals and even barefooted, but the Cochrane boots were noticable because they are not used by too many people. b6 b7C

He also stated he believed the man may have jumped on several occasions at the Elsinore center. If he did, there would be a registration card on file with [redacted] Elsinore Paricenter, Inc. He advised that each person that jumps must fill out a registration card before jumping, regardless of how much prior experience the person has had elsewhere. These cards are maintained at Elsinore Paricenter. On succeeding jumps, the cards are referred to if the individual is not known, and a receipt for jump tickets is given to the jumper with no name or further recording of the jump being made. An individual with prior experience and a license issued by the United States Parachute Association (USPA) would have the USPA license number written on the registration card. b6 b7C

[redacted] advised that USPA records are maintained at USPA Headquarters, care of Post Office Box 109, Monterey, California. The USPA Headquarters are on Canary Row, Monterey. He pointed out that licenses issued by the USPA necessitate that the applicant furnish a photograph of himself to USPA Headquarters before the license is issued He was not sure if a copy of the photograph was maintained in USPA files. He noted that licenses must be renewed each year. b6 b7C

[redacted] was unable to recall the name of the man he talked to and was not sure if the man mentioned his name. He estimates that there have been some 8,000 to 10,000 jumpers at Elsinore since June 1971, the majority repeat jumpers who b6 b7C

DB Cooper-26840

have made as many as six to eight jumps in a day.

[redacted] furnished the following as the description of the person who he talked to during July or August 1971: b6 b7C

Race	White
Sex	Male
Complexion	Light
Age	40 to 42
Height	6' to 6' 1" in boots

[redacted] Elsinore Paricenter, Inc., Parachute Jumping Center located at Elsinore, California, made available registration cards of parachutists who have jumped from the center. SAs EDWARD A. ROCA'OFF and [redacted] reviewed approximately 12,000 cards and picked out those with physical descriptive data matching that of the hijacker, including ages between 35 - 55 years, weight between 150 - 190 and height from 5'8 - 6'1. Also included were a number of younger borderline cards. Four hundred and thirty three registration cards were photographed, representing those jumpers who registered at the Elsinore center since 1969 and fit within the above descriptive limits.

[redacted] advised that registration cards prior b6 b7C
to 1969 do not contain height data and estimated that there are approximately 18,000 cards on file prior to that year and dating back to 1957.

Copies of the artist's conception and the descriptive data of the unknown hijacker were displayed to pilots, jumpmasters, riggers, mechanics, a dispatcher and to the owners of the jump center and none of them were able to recall anyone similar at the center.

On 12/3/71, [redacted] who was at the Elsinore b6 b7C

[redacted] California, furnished the following information:

Concerning the individual he talked to sometime during July or August 1971, who [redacted] believes could be identical to the subject that hijacked the Northwest Airlines aircraft on November 24, 1971, he recalled that the man he talked to must have been a smoker of Raleigh Cigarettes because he observed Raleigh coupons in the man's possession and remarked to him that he smoked those cigarettes with the coupons and could save enough to buy a "P. C.", meaning Para-Commander type parachute, the kind used by parachute enthusiasts and most sport jumpers. b6 b7C

[redacted] advised he recalled this while studying the Government memorandum containing the description of the man who hijacked the aircraft on November 24, 1971. He further advised that he doubted that the man he talked to belonged to any parachute or jumping clubs inasmuch as the average age of jumpers is between 25 to 28 years and they would not hang around with an "old guy like that", and too because most clubs in California have disbanded in the last year and a half. b6 b7C

Concerning clubs and their locations, [redacted] advised that they could be identified through the U. S. Parachute Association which prints a brochure with the clubs in alphabetical order by states. b6 b7C

Concerning an individual who talked to him at Skylark Field at Elsinor, California who resembles the artist's conception of the hijacker of the Northwest aircraft in Seattle on November 24, 1971, [redacted] b6 b7C stated he has reviewed his thoughts and is certain he can narrow the time span to the middle or late part of August 1971 when this conversation occurred. He still believes it was strange that a person would ask questions about jumping out of jet aircraft and discuss air speed then have something like the hijacking that occurred happen a short time later. He also stated that it may be coincedental but he saw an advertisement on pages 46 and 47 of Look magazine dated August 24, 1971 showing a parachutist jumping out of a jet aircraft. He stated this may have stimulated questions by someone seeing this advertisement, however, he is still concerned since the individual he spoke to resembles the artist's conception of the hijacker. He does not know the name of the man he talked to and has not seen him since. He did state he believes he would recognize the man if he sees him again.

On 12/3/71 SAs EDWARD A. ROMANOFF and [redacted] reviewed registration cards of parachutists who have jumped from the Elsinore Paricenter at Skylark Field, Elsinore, California. b6 b7C

It should be noted that there are approximately 25,000 registration cards on file going back to 1957, however, records containing descriptive data only go back to sometime during 1969.

Each person who makes a jump at Elsinore must fill out a registration card before making a jump, regardless of how much prior experience they have had elsewhere. On succeeding jumps, if the individual is not known, the card is referred to and the jumper may jump without filling out any further logs or cards. Although receipts are given to jumpers when they pay for tickets to jump, names are not recorded.

After reviewing the registration cards, all cards where the individual was between 35 - 55 years of age and was between 5'9 - 6'1, and between 150 - 190 pounds, was pulled aside and photographed, including marginal descriptions. Approximately 400 cards were photographed.

On 12/10/71, flight records for the month of August 1971 were photographed at the Elsinore center. These records contain the last names of the jumpers, the altitude from which they jumped, the name of the pilot and the date.

Review of these flight records on 12/14-15/71 revealed that the last names on these records matched thirty one individuals whose descriptions matched those of the hijacker and jumped from the Elsinore center during the month of August 1971. It was noted that the last name on the flight record does not mean that the jumper was the person whose registration card was pulled and photographed. It should also be pointed out that there were 29,140 parachute jumps made from the Elsinore center during the year 1970. The total number of jumps at the center for the year 1971 exceeds last year's total and will be in excess of 30,000 this year.

On 12/16/71, [redacted] picked out eight of the remaining thirty one cards stating he personally knows these individuals and they do not remotely resemble the artist's conception. The remaining twenty three cards represented individuals [redacted] does not know or the name was familiar but he could not recall what the man looked like. b6 b7C

On 12/20/71, [redacted] reviewed the remaining registration cards and eliminated eight more based on personal knowledge of the individual and the fact they are known to the center and do not resemble the artist's conception. b6 b7C

For the information of Seattle, on 12/16/71 [redacted] pointed out that on the flight records from Elsinore all the altitudes of jumps made were from 2,500 to 12,500 feet. He explained that sport jumpers and parachute enthusiasts all jump from altitudes in multiples of 1,000 starting from 2,500, 3,500, 4,500 etc., with the exception of 2,800 which is the competitive height for target jumping. He stated that the 10,000 foot level is reminiscent of Air Force training. He referred to Air Force phamphlet number AFP 160-10-3 entitled "Your Body in Flight" which places 10,000 feet as the maximum altitude considered safe without oxygen. [redacted] surmised that a man with Air Force experience may be the type of person that should be considered a suspect. b6 b7C

On the other hand, he pointed out that parachutists have different classes of licenses, A, B, C and D class licenses. To hold a D license a jumper must make two night jumps as well as other qualifications. A person with a D license is an experienced jumper.

The following investigation was conducted by SA [redacted]

On 2/16/72, [redacted] b6 b7C Santa Ana, California, was interviewed and advised he is employed as [redacted] at the Cherry Rivet Division of the Townsend Company at 1227 East Warner, Santa Ana, California. He advised he was at work on Thanksgiving Eve, 11/24/71, from 4:00 p.m. to 12 midnight at the above firm. His wife confirmed the fact he was at work on 11/24/71, and payroll records, as made available by [redacted] revealed [redacted] was credited with eight hours of work from 4:00 p.m., to 12 midnight on 11/24/71.

On 2/16/72, [redacted] b6 b7C [redacted] located at 3400 South Main Street, Santa Ana, California, advised that both [redacted] have lived in [redacted] since June 1969. They advised [redacted] and [redacted] is a [redacted] at a local high school. They advised they see both he and his wife daily as [redacted] adjoins the pool and [redacted] is at the pool every day after school. [redacted] advised [redacted] was a very muscular young man, weighing more than 200 pounds, about 5'10" in height. He stated [redacted] has a full head of brown hair and is a noticeably strong appearing man. The artist's conception, in his opinion, did not resemble [redacted] in any way.

On the same date, efforts to locate [redacted] b6 b7C at [redacted] Laguna Beach, California, were unproductive. A message was left at his residence and on 2/17/72, [redacted] telephonically contacted the Los Angeles Office. He advised he was [redacted] of the [redacted] Anaheim, California. Association, with headquarters at Monterey, California, and the membership is estimated at between 10,000 and 40,000 members depending on activity.

"Enclosed is an artist's conception of the hijacker who extorted two hundred thousand dollars from Northwest Airlines on November 24, 1971. This man is described as follows:

"Race-white; sex-male; age mid-forties; height-five feet ten inches to six feet; weight-170 to 180 pounds; build-average to well built; complexion olive, latin appearance, medium smooth; hair-dark brown or black; normal style, parted on left, combed back; sideburns, low ear level; eyes-possibly brown. During latter part of flight put on dark, wrap around sunglasses with dark rims. Voice low, spoke intelligently, no particular accent, possibly from Midwest section of the United States. Characteristic-heavy smoker of Raleigh filter tip cigarettes. Wearing apparel- black suit; white shirt, narrow black tie; black dress suit; black rain-type overcoat or dark top coat; dark briefcase or attache case; carried paper bag four inches by twelve inches by fourteen inches; brown shoes.

"If you have any information which might lead to the identity of this individual, please contact the nearest FBI Office."

The same article will also appear in the January, 1972 issue of "Skydivers", monthly publication subscribed to by many parachute enthusiasts.

Efforts are being made to include the same article in "Pilot Bulletin", official monthly publication of the Airline Pilots Association, Washington, D.C.

A major jump center on the West Coast has been identified as the Elsinore Paricenter, Inc., Elsinore, California. Each person making a first jump at this location, regardless of prior experience, must fill out a registration form bearing identifying information.

On December 3, 1971, Special Agents EDWARD A. ROMANOFF and [redacted] reviewed approximately 12,000 registration

cards of parachutists who have jumped from the Elsinore Paricenter, Inc. 433 registration cards were photographed representing those jumpers who registered at the Elsinore Paricenter, Inc., since 1969 and fit within the physical description limits of 35-55 years of age, 150-190 pounds, and five feet eight inches to six feet one inch in height.

A systematic review of these cards is being conducted to possibly identify subject.

Registration cards prior to 1969 do not contain height data. Such cards, numbering approximately 18,000, date back to 1957.

On December 10, 1971, flight records for the month of August, 1971 were photographed at the Elsinore Paricenter, Inc. These records contained the last names of the jumpers, the altitude from which they jumped, and the name of the pilot and date.

A review of these flight records December 14-15, 1971 revealed the last names on these records match 31 individuals whose descriptions match those of subject and who jumped from the Elsinore Paricenter during the month of August, 1971. Sixteen of the individuals whose cards were photographed were eliminated as possible suspects by interviews. The remaining 15 possible suspects are being systematically reviewed in an effort to identify the subject.

Details: For information of FBI Seattle, FBI Los Angeles is furnishing all investigation to include documents, evidence, and exhibits concerning this matter to FBI Seattle. FBI Los Angeles was using file number 164-497 for all documents at the time of the investigation. As per a telephone conversation between FBI Los Angeles and FBI Seattle dated July 10, 2002, FBI Seattle will consolidate Los Angeles' investigation into their file.

It should be noted that Volume 6, 1A56, contains a glass slide with a hair sample. This is possibly the hair sample previously requested by FBI Seattle in an earlier EC.

Re telcall of FA [redacted], Riverside RA, to SA [redacted], Seattle, 12/2/91. b6 b7C

Enclosed for Seattle is one 8 1/2 x 10 photograph of DON ALLEN MC CARY with an unidentified pilot. Also enclosed is a five-page Parachutist Log, dated 7/9/66 - 9/17/72.

Due to the 20th anniversary of captioned hijacking, this matter has been featured in local newspapers as well as on local television programs. As a direct result, on 11/29/91, DON ALLEN MCCARY, 3883 Buchanan Street, Space 39, Riverside, California 92503, TDD telephone (714) 735-9388, appeared at the Riverside RA. As MCCARY is deaf, he may be reached either through [redacted] EDITH WEAVER, (714) 689-6161 or through TDD Operator (800) 342-5833 and a message will be relayed through the teletype system. MCCARY provided a photograph of himself as a skydiver believed taken between 10/3/70 and 9/17/72 (Jumps #31 - 50). MCCARY stated he recently found this photograph and felt the pilot was identical to D. B. COOPER. MCCARY advised the pilot's signature as well as the pilot's license number appears on his log and would assist in locating and identifying the pilot in question.

The above information is being provided to the Seattle Division for whatever action deemed appropriate.

RE: [redacted] b6 b7C

On 1/26/73, [redacted] Los Angeles, California, was interviewed at the above address, the location of a business, [redacted] advised he is [redacted] of this business and works in conjunction with [redacted] He has been at this location for the past three years and has been in Hollywood, California for the past 8 years.

[redacted] stated he was, during [redacted] b6 b7C in the northwest and was a charter member of the Seattle Parachute Club in [redacted] During that period of time he was employed by the Standard Oil Company and worked on [redacted] with Seattle being his home port.

He stated he has discussed the Seattle hijacking with associates of his who currently are or have been involved in parachuting. He stated the artist's conception originally published in this matter bore some resemblance to one [redacted] an [redacted] and parachutist who has jumped at Elsinore, California, in early 1960. He added that after being made aware of the physical description of the hijacker he discounted [redacted] as a possible suspect as he was less than 30 years old and was 6'3" in height. b6 b7C

During this interview, [redacted] was noted to be completely bald except for a fringe of blond, graying hair along the sides of his head. He appears Nordic in descent and has blue eyes. He does not appear to bear a b6 b7C
